A SONG OF THE BATTERY.

-Written by-DUKE LAWRENCE SLAUGHTER. 'Most Done Traveling.

From the silvery sands of Old Camp Meade in dear old Maryland, The 351st Field Artillery sat out for Allemand; These were the boys from Baltimore—all Yank of a dusky hue,— From Pittsburg and Columbus-Tootle's chosen few. And some from the Carolinas and the southermost Florida Keys, From Georgia, Louisiana and from dear Old Tennessee: And while we cannot claim a Yank from Maine to the Golden Gate, Our Battery boasts the cream of Yanks from Conneticut to the Lone Star State.

But I sing of the boys of Battery "B" and its honored personnel-The boys who put the Hun on the run under Captain P. J. Cant-

There was Lieut, Wilkinson who knew his stuff" and Sgt. Hunt as

But with Lieut. Cammack behind the guns, we gave the Kaiser h-I sing of the gallant 1st Platton under handsome Willie Ross,
And Sgt. Jones who relieved him before the Kaiser lost;
And winsome Cpl. Blackus, Pvts. Collier and Helton, P.,
Adams, O., Addison, H., Morrison and Blair, Harold, D.

I sing of Sgt. Lawson and Sheep of Felletine fame, (Corporal Nathan Johnson) and stalwart Compton, N; Pvts. Evans, E., Craig, L. P., Stevenson and Robinson, C. Featuring, "I don't bother work and work don't bother me"! Then we come to the 2nd Platton and Ex-Sgt. Wagoner Spriggs, And the "Prince" of Gunners, "Red" Stewart and Slick Bynum, the There's honest Joe Poindexter, the Yank of Lathus fame,

With "Foggie" Dodson on the spot, they made their 6 in ring.

And we're making worthy mention of Sgt. Sanders, E. And Pvts. Childs, "Happy," A., Bolden and Nutter, Ray; It's great to think of Singleton, H. and Corporal Menefee, But to dispatch a hasty message, just call on Pettigrew, J. "Eph" Jones and his squad of gunners fired their shot at La Courtine,

Then came on the front with Pierson to keep the forest clean; There's only one in the Battery whom we realy ought to pass; That nuisance, Harry Holloman, with his ceaseless talk of "GAS!" And John Steel's Dorsey Sims was there, the Yank with the shaken

thigh, And old "Dad" Jones and Scottle, E. who drew shrapnel from the sky;

I sing of Sgt. Boyers and his "ammunition corps" With Corporal Thomas Banks in charge of boys like Branham, O. They brought along "Poor Kelley" with his popular little songs, But, O, where will "Poor Kelley" be when the first Tr umphet sounds?

The Cooks were there, the Orderlies and Buglar Gittings, too. Mechanics Richardson, Fender and House to make the recoil true.

"We were down to help 'em with the 155s" in the words of old Al Glenn. We've played our part in the great big game and we're headed home again:

Our guns are hushed in the depths of the wood in their damp and slimey nests. As we turn our weary footsteps toward the Golden West,

The trees are bared for winter's storms, the earth lies thick with leaves. The Allied hosts come marching home from prison camps set free;

There's a song in the air as we hike along the roads of shattered towns. For it took the boys of the 351st to make the Kaiser shed his

So here's to the Yanks of the 351st and the boys of Battery "B", Who stood the test in NO-MAN'S-LAND in the fight for Democracy; All praise to the Allied Nations and to our own RED, WHITE and

And now its up to the STARS AND STRIPES to make it good for Your gallant deeds are writ in gold across the page of time.

And though some other mark may dim yours will forever shine; Your Division is set, a dazzling star, in the Nations' MARTIAL CROWN

And you are the idol of the REGIMENT that put Bill Kaiser Down.

the finished work. Those who qualified were created staff sergeants a week later, with pay

amounting to four times his own. His repeated requests for promotion were turned down, as he was a regular. While on leave he deserted, joining another regiment immediately, and after 18 months in Saloniki he was discharged under an assumed name with heart trouble.

A kindly C. O. has been known to give an incorrigible a few days' leave and a sovereign, with the advice to lose himself-in the rosy times of peace.

Chinese Foundling in Luck. Baptist church at which A Chinese baby named Anna Michaelson became Anna Lee Chin Wore, legally adopted daughter of Chin H. Wore, wealthy proprietor of a New York restaurant, by order of Incidentally the story of how the child was saved from death in infancy and acquired the surname by which she has been known, was disclosed. Ten years ago Patrolman Michaelson was walking his beat in Chinatown when in the city the guest of her friend, his attention, was attracted by the Miss Virginia Moore of the Dixson piercing wail of an infant. In an alley ash barrel he found the Chinese child, in no suit of clothing, and blue with cold. The policeman wrapped the waif in his overcoat and took her to the police station, whence she was later taken to the New York Found-Company of Chicago, was in the city the childless Chin H. Wore, who is Tuesday looking the very picture of prospering in business, and his white wife visited the institution in search of an infant for adoption. Their hearts went out to Anna Michaelson, and they took the child home-the first Chinese girl legally adopted in

New York county. Sewer Swallowed Auto. During a recent heavy rain a considerable area of a well-payed Philadelphia street suddenly caved in, swallowing a heavy touring car which had seconds before it dropped into a hole 30 feet deep. The collapse of a 14foot brick sewer, flooded beyond its capacity, was the cause of the fallure of the pavement. A second heavy storm immediately following brought another rush of water through the broken drain. Although a guard was promptly thrown about the opening. the car, which was lying on its side in the crushed sewer, entirely disappeared without leaving a trace either in the sewer or in the creek which receives its outflow.-Popular Mechanics

Magazine. May Be Life on Venus From what we know of the surface conditions and climates of the various members of the solar system, Prof. Svante Arrhenius concludes that Venus is the only planet besides the earth where life is possible. Venus has a dense, warm atmosphere of high bumidity. With everything dripping wet, life near the equator should be luxuriant, though of low order on account of the uniform climate and lack of need for specialization; but nearer the poles the climatic diversity is greater, suggesting a more varied de velopment. Absence of any atmosphere makes life on Mercury and the moon impossible. Mars, too, must be uninhabitable with a temperature averaging about 37 degrees C. below zero and scarcely rising to free ing point even at noon on the equator, and its water supply is small,

ican Business Man.

Revolutionists Unable to See That They Were Being Led On When All Their Extravagant De-

mands Were Acceded To.

Dr. Nicholas Murray Butler telis a story about how an American business man solved the bolshevist problem in Petrograd, at least as it applied to his affairs. The Columbia university president says he has it directly from the American concerned. Here it is:

An American, head of a large firm in Petrograd, branch of an American business house, was itting in his office pondering on how he could close up the business and discharge his Russian employees without causing trouble. The revolution had precluded all chance of doing more business. As he was thinking over this prob-

lem the door opened and three of the employees entered. "We have decided," said the spokes man, "to apply the soviet principle

to this business." "All right," said the manager, "that seems to be the custom here. What do you want me to do?"

"First, we want you to double our wages. "All right. Everybody would like

double wages." "Then we want a month fustead of two weeks' vacation a year." "That's fine; I myself like a month's

"And for the month's vacation we want the pay double again." "Now, I never thought of that. But

now that I do it's true that on a vacation it is nice to have a lot of money. We'll do that, too," "Now that those things are decided we must tell you that we won't need

you as manager any more.' "I certainly never thought of that. But I am responsible to the stockholders in the United States. This will never do." "We thought of that, too-about the

elect a manager and to have him sit here with you and tell you what to "Now, that will be fine. That's all

stockholders. So we have decided to

right. You do that." So the manager was elected and he occupied a desk next to the American and told him what to do. At the end of the first week the wages were doubled. The soviet manager pre sented a memorandum to the Ameri-

can manager. "What's this?" said the American. "This is my bill for my salary as manager," explained the Russ

workman. "No, I can't pay that. You see, I am paid by the stockholders in America. I am elected manager by them. You were elected manager by the workmen here in Petrograd. You must be paid by them."

"Oh, no!" "Oh, yes!"

The men struck at the order of their soviet manager. And the American closed up the offices and returned to America. His problem had been solved with-

out any disorder and with only the loss of an extra week's wages. A Good Decay. An officer of the medical department

was paying his first visit to the frontline trenches. A corporal from Missouri was standing on the fire step engaged in the pleasant pastime of salping at whatever there was to spipe at. The doctor wandered by an open loophole in the parapet. "Crack!" came from & German sniper across No Man's Land.

"Whane-placey!" The bullet came whizzing through the loophole and with a naughty thud splashed much right on the doctor's new trench coat. "Bang!" replied the corporal's rifle, Deep silence reigned for ten seconds, Then the doctor picked himself

from his hands and kneen and asked: "Did you get him, corporal?" "No, sir," replied the corporal, "but if you'll just walk by that loop again I'll sure get him next time."

New Work for Disabled Soldiers. A British diamond corporation has established a diamond-cotting factory at Brighton, Fugland, and has arranged for instruction centers in various parts of the country where disabled soldiers can learn how to transform rough diamonds into finished gems. Before the war practically all of the British diamond output, which means practically all of the world's output, was shipp d to the continent of Europe to be polished. Proprietors of the new factory already en several hundred ex-fighters and claim to have proved that they can do as good work as the men on the continent who have acvoted their lives to thu diamond-cutting trade.-Popular Mechanics Magazine.

Shaping Steel. Repeated que ching tends to change the shape of steel. In a recent experiment, a small tank of water was heated by raising to reduces a soft-steel cylinder 3.5 inches in diameter, and then plunging it into the water. After 800 quenchings the metal was found to have been shortened three-fourths of an inch, with a corresponding increase in width. The steel contained 0.05 per cent of carbon, 0.01 of silicon, 0.8 of phosphorus, 0.05 of sulphur and 0.45 of manganese.
